INTERNATIONAL PRELIMINARY REPORT ON PATENTABILITY

national application No.

PCT/JP03 /11485

Box No.	Basis of the report
1. With other	regard to the language, this report is based on the international application in the language in which it was filed, unless wise indicated under this item. This report is based on translations from the original language into the following language which is the language of a translation furnished for the purposes of: international search (under Rules 12.3 and 23.1(b)) publication of the international application (under Rule 12.4) international preliminary examination (under Rules 55.2 and/or 55.3)
furnis	regard to the elements of the international application, this report is based on (replacement sheets which have been thed to the receiving Office in response to an invitation under Article 14 are referred to in this report as "originally filed" re not annexed to this report):
	the international application as originally filed/furnished
	the description:
	pages as originally filed/furnished pages* received by this Authority on pages* received by this Authority on
	the claims: pages as originally filed/furnished pages* as amended (together with any statement) under Article 19
	pages* received by this Authority on the drawings:
	pages as originally filed/furnished pages* received by this Authority on pages* received by this Authority on a sequence listing and/or any related table(s) - see Supplemental Box Relating to Sequence Listing.
3.	The amendments have resulted in the cancellation of: the description, pages the claims, Nos the drawings, sheets/figs any table(s) related to sequence listing (specify):
	This report has been established as if (some of) the amendments annexed to this report and listed below had not been made, since they have been considered to go beyond the disclosure as filed, as indicated in the Supplemental Box (Rule 70.2(c)). the description, pages the claims, Nos. the drawings, sheets/figs the sequence listing (specify): any table(s) related to sequence listing (specify):
* If item 4	applies, some or all of those sheets may be marked "superseded."

INTERNATIONAL PRELIMINARY REPORT ON PATENTABILITY

International application No.

PCT/JP 03 /11485

Box No. IV Lack of unity of invention	
1. In response to the invitation to restrict or pay additional fees the applicant has:	_
restricted the claims.	
paid additional fees.	
paid additional fees under protest.	
neither restricted nor paid additional fees.	
2. This Authority found that the requirement of unity of invention is not complied with and chose, according to Rule 68.1, not invite the applicant to restrict or pay additional fees.	эt
3. This Authority considers that the requirement of unity of invention in accordance with Rules 13.1, 13.2 and 13.3 is:	
complied with.	
not complied with for the following reasons: The subject matter of Claim 1 relates to " a phenanthroline	
compound represented by th general formula [I] . In general formula [I], Arl and Ar2 are selected from	
In general formula [I], Arl and Ar2 are selected from "fluorenyl group", "fluoranthenyl group", "perylenyl group" and "carbazolyl group". Chemical structure represented by the general formula [I] without Arl and Ar2 has alreacy been known (see documents in the International Search Report) so that it may not be a significant structural element.	
The present international application has four groups of inventions as follows;	
 phenanthroline compounds substituted by "fluorenyl group", phenanthroline compounds substituted by "fluoranthenyl group", phenanthroline compounds substituted by "perylenyl group" and phenanthroline compounds substituted by "carbazolyl group". 	
4. Consequently, this report has been established in respect of the following parts of the international application:	
all parts.	
the parts relating to claims Nos.	

In Lational application No.
PCT/JP03 / 11485

Box No. V Reasoned statement under Articl citations and explanations suppo		ele 35(2) with regard to novelty, inventive step or industrial applicability; orting such statement		
1. Statemen	t			
Novelty (N)	ty (N)	Claims	2-15,17,18	YE
		Claims	1,16,19	NO
Inventive step (IS)	Claims	none	YES	
	Claims	1-19	NO	
Industrial applicability (IA)	Claims	1-19	YES	
	Claims		NO	

2. Citations and explanations (Rule 70.7)

Documents

- 1. EP 1097980 A2 (SONY CORPORATION) 2001.05.09, especially page 30-31, & EP 1097980 A3 & JP 2001-131174 A
- 2. EP 1097981 A2 (SONY CORPORATION) 2001.05.09, especially page 29-30, 4-5 & EP 1097981 A3 & JP 2001-135482 A & US 6524728 A
- 3. JP 2001-267080 A (TORAY INDUSTRIES, INC.) 2001.09.28, especially page 5-8 (no family)
- 4. ITO, Takayuki, Syntheses of Phenanthroline Derivatives and Thier Application to Organic EL Devices, Polymer Preprints, Japan, 2002.09.18, Vol.51, No.11, pages 2859-2860
- 5. JP 2002-050481 A (TORAY INDUSTRIES, INC.,) 2002.02.15 especially page 4-8 (no family)

Claims 1,16 and 19 lack novelty under PCT Article 33(2) as being anticipated by document 1.

Document 1 describes the basic structures of the compounds in the inventions as well as the compounds having substituted or unsubstituted fluorenyl groups as Ar1 and Ar2.

And it also describes that the organic electroluminescent device comprising an anode electrode, a cathode electrode and an organic compound layer including bathophenanthroline compound and that the organic electroluminescent device may have a structure having a hole transport layer serving also as a luminescent element.

Claims 2-6 lack inventive steps under PCT Article 33(3) as being obvious over Document 1.

A person skilled in the art easily manufactures the various compounds base on the description of the Document 1 as above.

Claims 2,5,17 lack inventive steps under PCT Article 33(3) as being obvious over document 1 in view of document 2.

Document 2 describes the compounds with the basic structure of the invention having two substitutions at the ring in the middle. Document 1 describes the substituted or unsubstituted fluorenyl groups as a substitution.

Supplemental Box

In case the space in any of the preceding boxes is not sufficient. Continuation of: Box No. V

Claims 1,2,3,13,14,15 lack inventive steps under PCT Article 33(3) as being obvious over document 3.

Document 3 describes the basic structures of the compounds in the inventions as well as the compounds having substituted or unsubstituted carbazoylyl groups.

Claims 1-12,16,17,18 lack inventive step under PCT Article 33(3) as being obvious over document 4 in view of document 5.

Document 4 describes application of phenanthroline derivatives to organic EL devices, especially application of phenanthroline substituted by naphtyl group. Document 5 describes organic EL device having tri-substituted benzen, as well as fluorenyl group, perylenyl group and fluoranthenyl group as preferred substitutions.
